

MICROSOFT 365 6 - PART ONLINE WEBINARS

MONTHLY SESSIONS - #1 - SEPT 21ST

**With
Mitch Baird**

Learn to leverage the powerful communication and collaboration tools of Microsoft 365 with this series of online webinars.

Microsoft 365 (formerly Office 365) brings together a suite of apps, device management and security services to help organizations everywhere increase productivity, streamline operations, and keep their data secure. Also, you'll learn about some of the hidden features of Microsoft 365 and how to best use them in your current ECE centres.

Mitch specializes in information technology for non-profits and small businesses. With over 20 years of providing technical solutions and staff training in the Indigenous and mainstream nonprofit and small business sectors where budgets are always an issue. Mitch can provide hands on work developing websites, staff training and consulting on large IT projects and Federal Privacy compliance issues.
